Reasons for Allowance

1. The amendment received on 6/14/2004 has been has been acknowledged. Claims 18, 20, 21, 23-30, 32-34, 36, and 37 are pending.

Allowable Subject Matter

2. Claims 18, 20, 21, 23-30, 32-34, 36, and 37 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention is directed towards a method for performing disk reproduction and recording. Each independent claim identifies the uniquely distinct feature of "a rotational control program capable of causing said reproduction device to selectively control the rotational speed so as to make the pulse sequence and the first information component match, wherein said pulse sequence corresponds to a rotational speed of said disk recording medium." The closest prior art, Yunoki (U.S. Patent No. 4,837,644) discloses a disk recording/reproducing apparatus capable of sampling a magnetic pulse generated by a rotating disk. The applicant's arguments were persuasive in disclosing that Yunoki's design does not vary the rotational speed of the disk in order to match the pulse sequence to verification information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
